

# Bram de Groot

curriculum  
vitae

## Info

Born on 9th of novembre 1989. Bram de Groot is an artist working across the boundaries of modern technologies, design and fine metallic arts and crafts. Ethical questions in modern day technology mainly trigger his ideas, where as Bram mostly focusses on designing on the long term. His work has been commissioned to exhibitions by NXP Semiconductors and the Provincial House of Gelderland for example. Furthermore, he works as a freelance designer. Bram also studied as a Goldsmith and owns his own studio for this craft. Sometimes, Bram gives workshops and teaches short classes on art departments. In 2019, Bram received the title of Arnhems Nieuwe and in 2016 was awarded for "young talent" in crafts at the schoonhoven silverday event. His work can be found on <http://bramdegroot.com>
